FEATURE TRIP FOR 2006

Roatan , Honduras Anthony's Key Resort

For over 30 years, Anthony's Key Resort has been serving up the spirit of adventure with relish, including diving spectacular reefs, interacting with dolphins, hiking beautiful gardens, and much more while never forgetting comfort or hospitality.

Discover what many divers, world travelers, nature lovers and active families already know. Anthony's Key Resort is the resort designed by nature where tranquility and adventure combine for a formula that has drawn visitors back again and again.

Perhaps no island in the Caribbean offers more distinctive or easily accessible dive sites than Roatan. The islands reefs and drop-offs are teeming with colorful marine life and are ideally suited for novices and experts alike. The resort's fleet of modern, custom-built dive boats whisk divers to 35 sites located just 5 to 30 minutes away. Coral grows thickly on walls that begin in crystalline waters as shallow as 10 feet deep and drop to the purple depths of the Caribbean. Squadrons of eagle ray, schools of brightly colored tropical fish, the occasional meandering shark and eel gardens are just a few of the sites that delight divers. Several large wrecks have also been recently sunk not far from the resort and now wait to be explored. With water temperatures averaging 80 degrees or better, few currents and visibility ranging from 50 to 100 feet, Roatan is a favorite among visitors who prefer their diving colorful, thrilling and comfortable.

**Join us for one truly
incredible week!**

ATTENTION: SPIEGEL GROVE DIVERS

Three years after she made news by sinking too soon and flipping over, she is making news again.

The Spiegel ended up on her starboard side with her well deck facing into the current. She has been there resting comfortably until Hurricane Dennis finished the job of righting her.

When Dennis pasted by the Keys, he created 20 foot waves with currents that were very

strong which help finish off the job of all those that worked so hard to right her. Rob Bleser's quote about the ship is that "It was a GREAT WRECK DIVE, but NOW it is a GREAT SHIPWRECK DIVE." The ship is a little deeper now. The deck and cranes start a 60 feet. Check out our web site for more details on the Great Ship roll.

Now is the time to re-dive the new dive site.

We, at SIS have lost a VERY DEAR Friend.

It is my sad duty to inform you that Robert "Donnie" Brinson succumbed to cancer in June. All who knew him will remember him as a wonderful man who was always willing to help you.. He was a character in a special way. He loved to dive. Many times he said that his greatest regret about diving is that he started so late in his life. I feel that he enjoyed a lot of good diving for his short time in the sport. He rose to the rating of Assistant Instructor and enjoy teaching and assisting teaching. He will be missed by all that knew him. Our thoughts and prayers go out to Nancy and the rest of the family.

For those wishing to make a donation, please direct it to the Lance Armstrong Foundation or the Tree of Life, Bloomfield Indiana.
