**Dive Trips are a GREAT social event!!**

A favorite part of my job is going on dive trips. The reason that I enjoy dive trips is because I get to spend time getting to know you, my customers. I get to introduce you to new and exciting diving locations. We have time to share our experiences what we have seen and heard, and plan other new and exciting adventures. Trips are scheduled based on customers' request for locations and to fit their schedules. Your input on dive trips is invaluable to planning. After many years of leading dive trips to numerous destinations, I still find each trip more exciting than the last one. Please take time to e-mail, post mail, or stop by with suggestions for trips that you would like to take. Each of you have a dream trip, and I am more than glad to assist in fulfilling your aspiration whether it be Cozumel or Cayman or the Florida Keys, or wherever it may be. We want to be the people that you think of when you are planning a dive trip. When we took a group to Belize a restaurant managers asked us to return to their restaurant again, because we are so much fun. The divers from Southern Indiana Scuba are not only good divers, but very nice people. This fact is evident wherever we travel.

At the present time we have two longer trips scheduled that are worthy of your consideration. Both the trips, one to Belize on the Nekton Pilot in January and the other to Anthony's Key in March, are trips that will make you say "WOW", not just because of the fantastic diving, but because of the location and people. Diving is a group sport and Southern Indiana Scuba wants you to enjoy it.

Summer is for scuba diving. Everyone anxiously awaits for it to arrive so they can dive. **GREAT NEWS!!** It is here! We are diving!!! Southern Indiana Scuba is offering local trips to surrounding quarries. One of our instructors or assistant instructors will be leading these trips. What does a local trip cost???? We just love to dive and are willing to show you around, or just hang around and answer questions for you. Check with us for quotes about specific dives.
